EXPERIENCE

PHP Developer
Narrasoft Inc. | April 2025 - Present

- Integrated Vertex AI with Optical Character Recognition (OCR) and Large Language Models(LLMs) to process documents.
- Enhanced existing Google Document AI integration for improved performance.
- Full-stack development for both legacy systems and new feature implementations using DDD principles.
- Applied CQRS architecture to separate read and write operations for scalability and maintainability.
- Managed fullstack development for both legacy and new features.
- Designed and implemented background cron jobs and schedulers.
- Developed test cases using PHPUnit.
- Optimized complex database queries to support real-time dashboard analytics.
- Utilized Docker for streamlined collaboration with the development team.

Mid PHP Software Developer
VtimeTech Consulting Inc. | July 2023 - April 2025

- Integrated third-party API services and facilitated seamless two-way communication.
- Managed backend development for both existing and new features.
- Successfully integrated various third-party products and features, including transfer and seamless wallet functionality.
- Developed test cases for APIs using PHPUnit and Laravel Dusk.
- Resolved critical system issues directly in the production environment via live server access.
- Utilized Docker for streamlined collaboration with the development team.

Software Developer
Blue Aurora Solutions Inc. | June 2022 - July 2023

- Managed frontend and backend development using Laravel and Vue.js.
- Created API endpoints for frontend to consume (Web and Mobile) REST APIs and GraphQL.
- Implemented payment methods such as ShopeePay and Lalamove for three different countries (Philippines, Thailand, Vietnam).
- Made fixes and adjustments for existing payment methods such as PayPal, GCASH, GRAB PAY, VNPay, ZaloPay, and eGHl for Mobile API endpoints.
- Created a fully functional attendance system for company employees.
- Created an assembly tool web app to manage orders in batches.
- Created Riders Portal web app to manage dispatched riders.

Full Stack Web Developer Intern
Blue Aurora Solutions Inc. | March 2022 - May 2022

- Full stack development using Laravel and Vue.js.
- Applied fixes and enhancement to existing and new APIs
- Collaborated with other developers.
